

# 2017 GPS ADVERTISING OPPORTUNITIES

The Deerfield Golf Club & Learning Center is a premier, public 18-hole golf course and practice facility located in the heart of the North Shore, 25 minutes from Chicago. Designed by renowned architect Roger Packard, the course offers a superbly conditioned 5 Tee layout, Championship to Beginner, in a serene setting.

With over 27,000 cart rounds in 2016, our new GPS system provide a tremendous opportunity for advertising both goods and services to our captive upscale consumer.

The bright 7 inch HD screen is mounted to the front of the golf cart with viewing access for both players and provides an average of 6 minutes of ad exposure on each hole. At a fraction of the cost of print ads, it's an affordable way to reach affluent consumers, on the course, in a relaxed atmosphere, from the 75 yards to the green to the next tee.
